To Our Valued Patients

This is our late and cancellation policy,

We reserved this time specifically for you please keep in mind that procedures of this complexity require time for preparation, your courtesy is requested in regards to last minute cancellations.

Our practice reserves the right to charge a fee for appointments that are last minute cancellations, late to the appointment (15 min) that cause us to reschedule your appointment and a broken appointment without a 48 hour notice.

We strive to make every effort to keep our schedule on time and ask that our patients would do the same. Failure to comply will cause a release from our practice.

Thank you for your consideration.
